

The model

You know the right customers – retailers, car dealerships, real-estate offices, hotels, restaurants. We supply the technology and run the project: Lumerax (or a certified partner in the region) advises, quotes, installs and invoices. You bring the contact – and receive a commission once the project is completed and paid. You don't sell, you don't negotiate, you carry no liability.

Two tiers, one clear logic

ROLE	YOUR CONTRIBUTION	COMMISSION
Referrer (Tippgeber)	You give us a concrete contact with a named person – nothing more.	5%
Agency partner	You qualify the contact (surface, need, appointment) and actively introduce us – e.g. from your client base as an agency, media consultant or shopfitter.	8%

Commission on the net order value of the referred customer's first project (excl. VAT, excl. travel costs). Due after completion **and** full payment of the project. Individual agreements possible for larger volumes.

Example: 20 m² project (Standard)

ITEM	AMOUNT
Net order value of the customer project	€20,508
Your commission as referrer (5%)	€1,025
Your commission as agency partner (8%)	€1,640

How it works

- 1 Register the lead: short e-mail to info@lumerax.de with company, contact person and location – **before** our first conversation with them. Your lead is then protected for 6 months.
- 2 We confirm the registration within 48 hours (no protection if the contact is already registered with us or in negotiation).
- 3 Lumerax or the regional certified partner takes over: consultation, site visit, quote, contract, installation, invoice.
- 4 The project is carried out and paid by the customer.
- 5 You issue your commission invoice – or receive a credit note from us. Payout within 14 days.
